VISION AND OBJECTIVES FOR KICA

My vision for KICA comes from a new view on life after going through throat and neck cancer in 2022. I want everyone to live life to the fullest and not sweat the small stuff. Kiawah is an amazing community with breathtaking landscapes and enough amenities to keep the entire family happy. If elected, I hope to provide transparency and a voice for all that live here. I plan to utilize social media so that everyone is aware of current issues. I would like to form a better relationship between the ARB and our homeowners. Obviously, Kiawah needs rules and regulations, but some of the current regulations need to be revisited.

PROFESSIONAL BACKGROUND

I finished my undergraduate studies at NC State in Biological Sciences with a minor in Business in 2001. In 2006, I completed dental school at UNC and in 2009, I completed my specialty training in pediatric dentistry at University of Alabama at Birmingham. I am board certified and work in Charlotte, NC in private practice.

COMMUNITY OR BOARD LEADERSHIP EXPERIENCE

While I do not have much experience serving on a board, I am looking to become more involved in the Kiawah community. I am younger than most on the board and would hope that I could provide some insight as to what younger owners with families want in this community.

KEY ISSUES I HOPE TO ADDRESS ON THE KICA BOARD

I feel that residents need to have more say before changes are made and it needs to come to a vote from the majority. Transparency is needed and issues need to be put forth in a simple and straight forward manner. For example: the speed enforcement cameras that were installed without asking the residents who pay for this community. This is money that was wasted and could have been used for making the community better. Those in power on the board need to work for the community,

not themselves. I also hope to address the problem of getting work done on the island. It should not be so hard to get things done around your own house.
