## **VISION AND OBJECTIVES FOR KICA**

As a new member to the KICA Community, and hopefully the board, I do not have line of sight to existing issues. But, I am confident that my track record of analyzing, critiquing, and ultimately solving complex matters will be a great asset to the KICA Board.

## **PROFESSIONAL BACKGROUND**

I am a graduate of the College of Charleston with a Bachelor of Science in Psychology. I am a serial entrepreneur, with a strong record of executive leadership in the C Suite. I currently own and manage the largest foundation and repair companies in the Southeast.

## **COMMUNITY OR BOARD LEADERSHIP EXPERIENCE**

I serve on several private corporate boards, which gives me depth of experience into different industries, management styles, and opportunities to use my skill set to advise on unique challenges and opportunities. I am also a Commissioner on The Charleston County Housing and Redevelopment Authority.

I believe the most immediate asset to me being elected as a board member is that I am a born and bred native of Charleston, SC. Not to detract away from any board member, none of whom I believe are local, the current KICA board does not have line of sight to how the Charleston native community is impacted or feels about the decisions made by this board. Second, I believe I am the youngest applicant, and if elected, member of the KICA Board. This brings a diverse perspective on how the KICA Community can serve, protect, and attract new residents. Lastly, I am not retired and I have a deeper line of sight into the issues affecting our community at large through my connections and interactions with elected and business leaders in the greater Lowcountry area.

## KEY ISSUES I HOPE TO ADDRESS ON THE KICA BOARD

As a new member to the KICA Community, and hopefully the board, I do not have line of sight to existing issues. But, I am confident that my track record of analyzing, critiquing, and ultimately solving complex matters will be a great asset to the KICA Board.
